<p>How does this year deliver your curriculum intent?</p>	<p>The Year 10 Business curriculum is structured to equip our students with the skills and confidence to explore how different business situations affect business decisions. Each topic will encourage students to make informed choices about a wide range of further learning opportunities and career pathways as well as developing life skills that enable them to become financially and commercially aware. This year continues to allow students to make an informed approach that will help them to evaluate choices and decisions about their own future working lives.</p>
